

Aerojet Academy FAQs

1. What is an aviation training school?

An institution that offers education and training for different aviation industry careers.

2. What types of programs do aviation training schools offer?

Some aviation industry career programs include, aircraft maintenance engineering, cabin crew training, pilot training, ground handling, language courses, etc.

3. What are the requirements or prerequisites to enroll in the training course?

The requirement for each training course is different. Once you read up on a particular course and decide you want to pursue it, you can click on the relevant link to find out more about the career and its entry requirements.

4. How long does it take to complete training at an aviation school? What is the duration of the training?

The length of your training is dependent on which training course you select and the mode of study you opt for. Once you have decided which career you are interested in, you can select the relevant course on our academy website to obtain full details about the duration.

5. What are the costs associated with attending an aviation training school?

The cost of attending each aviation school will differ, as it is dependent on the content of the course, which certification is being offered and the quality of record of the school you choose. At Aerojet, once you have selected the relevant course, all the details such as cost, duration and mode of training can be obtained from the applicant portal.

6. Are there scholarships available for successful candidates?

Aerojet Academy offers scholarships for some careers in collaboration with Aerojet Aviation's various operational divisions based on their needs. Scholarships are also offered with the support of Aerojet Foundation.

7. What career opportunities are available after completion? Do you offer job placement or assistance with finding jobs upon completion?

For most of the training programs offered, Aerojet Aviation offers either guaranteed jobs, or job placement support (*assistance with being placed in a job with our partners worldwide*). Please note that this is for candidates who successfully complete and pass their programs and maintain good professional behaviour.

8. Is the training school regulated or accredited?

Due to the nature of the aviation industry, Aerojet Academy mainly provides courses for certified qualifications such as the European Aviation Safety Agency (EASA). Our Training Academy facility is an EASA certified center. There are also courses for proficiency such as language, mastering certain procedures that may be offered from time to time. The Academy is constantly looking to offer more courses to serve the African continent, therefore, many more courses certified for Airlines, and by IATA and other international bodies will be offered at various times. Once you are registered with us, you will be notified of any new courses as and when they become available. Alternatively, you can check back on our site regularly for updates or follow us on social media.

9. What is the average class size or trainer-to-student ratio?

Depending on the course chosen and the mode of study - part-time, full-time, modular, etc, the class sizes may vary. However, because of our EASA certified center status, our classes are a maximum of 28 per class.

10. What are the facilities like at the training school?

The Aerojet Academy boasts of top-class facilities and a learning environment that has been approved by EASA and complies with modern learning technology requirements.

11. Is there any hands-on or practical training involved in the programs?

Most technical aviation courses have a hands-on element to them. However, some courses such as the Aircraft Maintenance Technician Training Program we offer have a significantly higher amount of mandatory work experience and hand skills training as a requirement for EASA certification. Your chosen program will determine what practical training is required.

12. Can I transfer credits from another institution?

Because the Academy is not a typical mainstream Academic institution, credits are not transferable. We provide courses and certification training that lead you directly into a job. Therefore, once you have met the relevant entry requirements, such as secondary school or university education certificates and passed any required aptitude tests we require when you apply, you do not require anything else.

16. Do you offer any online or part-time training options?

There are various course options to suit various needs; the options depend on your chosen career path or training program. Please check our website under training programs to see what options are available for you.

17. What is the application process for your training programs?

To apply for any of our training programs you first need to register; your registration is one-off and does not expire. Once you are registered you will have access to our candidate portal, where you will have access to all our course information, be able to book and pay for modules, exams, course material, and tuition slots for your chosen program. You will also have access to job opportunities for courses you have completed.

18. Are there any opportunities for international students?

Our Academy is open to people from all over the world. At Aerojet all students are important to us regardless of where they are from and will get access to the same courses and job opportunities at the same cost.

19. What policies does the school have regarding attendance, grading, and conduct?

The Academy has various attendance and grading requirements for the different courses. You will get information for attendance and grading based on your chosen module when you enroll. Regarding conduct, The Aerojet Academy expects very high standards of performance and good behavior from all its students. Because of the nature and safety culture of our industry, all students will be required to adhere to the rules and regulations of the academy as stipulated in our student's handbook, which will be made available to you when you enroll onto any of our courses. Non-compliance could lead to disciplinary action or outright dismissal.

20. How does the school handle complaints or issues that may arise during training?

The process for handling complaints and issues during training are contained in our Student Handbook, which will be issued upon signing your training agreement during enrolment.

21. Is there any refund policy for courses?

There is no refund policy on short courses of one year or less, however students may defer for good reason and complete at a later date. For longer training courses of 2 years or more refunds may be issued to students for an academic year which has not yet started provided they give the required minimum notice before the commencement of the academic year. Further information on this may be found in the Student Handbook upon enrollment.

22. What are the qualifications of Instructors?

All instructors are trained and certified for their chosen subject areas and for their relevant courses. This also applies to our practical assessor and examiners.

23. Do you offer any certificate upon course completion?

Certificates are issued for the completion of all courses, as well as relevant industry licenses where applicable for the chosen program.

24. Is there a trial period available for courses?

There is no trial period for any of our courses.

25. How do you keep the curriculum up-to-date with industry changes?

In order to remain an EASA certified center, we are required to adhere strictly to all the relevant changes and updates to training content, as well as exam requirements and standards. This ensures we are fully compliant and abreast with all industry changes.

26. How can I contact support if I have further questions or enquiries?

You can reach us at trainingprograms@aerojet-academy.com or send an enquiry through our website (bottom right of our home page)
